Subject: RE: follow up with LA County on Exide

I can meet on Monday except 1-3. Seems like we should talk before scheduling the follow up call with the County. Thanks, Tom

Subject: follow up with LA County on Exide

Hi all – At our meeting two weeks ago with Angelo Bellomo and Barry Groveman from LA County they request our assistance ensuring appropriate progress on Exide, also asking that we follow up with them as soon as possible. Given the 8/12 County Board of Supervisors' letter to the Governor expressing continuing concern for DTSC's management of the Exide permit and community testing and clean up, we should anticipate the County following up with us soon regarding our decision on engaging with them. Also in the offing are requests for Jared to meet with the County as well as with Monsignor Moretta, representing the concerns of the affected community.

Given the recent outreach and discussions we've had with DTSC about Exide, as well as our internal conversations regarding our possible role, it seems appropriate to give the County a status update on our discussions and deliberations. I don't think it's necessary for us to have reached any specific decisions about our course of action, but it would be useful for the County to know the actions we've taken to date to move us toward making those decisions.

I'd like to schedule a call with Angelo and Barry for next week, and would suggest having Joel and Tom (and any others as appropriate) on that call. Tom and Joel (and any others who should be included) do you have time Monday (preferably) or Tuesday to discuss what we have on Exide on which we can update the County? I'd then like to schedule a call with the County for next Tuesday or Wednesday.

Thanks!

Steven
